KLAS Klarification[®] Re: Carefx

This notification is a clarification or correction of the public use of KLAS data where the use of KLAS data was unclear, partial, or incorrect.

Today's Date: August 22, 2008

Who: Carefx Corporation

What: Press Release

When: August 13, 2008

Where: Across Business Wire Press Releases

Data Claim: A press release sent over Business Wire claimed that "Carefx Takes Leadership Position in Platinum KLAS Ratings of Single Sign-On (SSO) and Context Management (CM)Vendors."

Data Klarification: While vendors scoring significantly above the market average are demonstrating 'leadership' in the Single Sign-On (SSO) category, the term should not be misconstrued as a designation of the vendor with the highest scores in Platinum KLAS. On the specified date, HealthCast finished with the highest overall ratings, followed by Carefx. Additionally, while the KLAS market segment is referred to as "Single Sign-On", it also includes vendors that provide Context Management (CM). Carefx clients provided KLAS their Carefx measurement on Context Management (CM) only.

Data Restatement: On August 13, 2008, the following Single Sign-On (SSO) and Context Management (CM) vendors all rated significantly above the industry average of 79.69 and showed the following overall scoring on a scale of 0-100, with 100 being the highest:

HealthCast 88.74

Carefx 86.25

Sentillion 85.46

IBM 85.42
