

KLAS Klarification®

This notification is a clarification or correction of public use of KLAS data that was unclear, partial, or incorrect.

Today's Date: September 10, 2018

Who: Becker's Hospital Review

What: KLAS Report - Physician Scheduling 2018: Cost-Effective Gains in Efficiency

When: August 21, 2018

Where: Becker's Hospital Review website, url:
<https://www.beckershospitalreview.com/artificial-intelligence/top-automated-physician-scheduling-tools-as-ranked-by-klas.html>

Data Klarification: KLAS would like to clarify that AMiON was included in the KLAS Physician Scheduling report as a component vendor (a product that typically includes most but not all components that comprise a complete system or that serves only a subset of the market.) Additionally, KLAS highlighted that although AMiON is a simple web-viewer and lacks the scheduling algorithms and rules engines offered by other vendors, its customers voiced satisfaction with its less complicated templates.
